

## **On-line Tour Permit FAQs**

- Why do we need to enter all of our training records? Shouldn't National have access to that information, and be able to automatically update the MyBSA website?
  - The tour permit is in a different database in order to protect confidential information (i.e. social security numbers and childrens' names).
- Do we need to get signatures for the online tour permit and/or fax over our copy once we print it out?
  - No.
- If Council can see our tour permit once we submit it, would campmasters/the ranger be able to download a copy at camp if the unit forgets to bring their copy of the tour permit with them?
  - The Council does not have Internet access at camp. It is your responsibility to provide them with a copy of your permit.
